Summary

Software Developer with **2+ years** of experience building scalable web and cross-platform mobile applications using **React.js, Next.js, React Native, and TypeScript**. Skilled in developing responsive UI components, integrating **REST APIs**, managing state with **Redux Toolkit** and **TanStack Query**, optimizing application performance, and collaborating with cross-functional teams in Agile environments.

Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, JSON

Frontend: React.js, Next.js, React Native, Expo, Svelte, Tailwind CSS, shadcn/ui, Framer Motion, Chart.js

State Management: Redux Toolkit, TanStack Query, Context API, Zustand

API & Backend: REST APIs, Axios, OpenAI API, Socket.IO, Supabase, Prisma, JWT, Clerk

Tools: Git, GitHub, GitHub Actions, Vercel, Postman, Figma, Vitest, Jest, Lighthouse, Jira, Slack, Sentry

Core Skills: Responsive UI Development, Performance Optimization, API Integration, Code Splitting, Lazy Loading, Agile

Education

Postgraduate Diploma in Mobile Computing,
Centre for Development of Advanced Computing
03/2022 – 09/2022 | Pune, India

Relevant Coursework: Java, Spring Boot, SQL, MERN Stack, Kotlin, Swift, Android, iOS.

Bachelor of Engineering in Computer Science & Engineering,

Rajiv Gandhi Proudhyogiki Vishwavidyalaya (R.G.P.V)
07/2013 – 06/2017 | Bhopal, India

Relevant Coursework: DSA, OOP, DBMS, Operating Systems, and Computer Networks.

Experience

HeapTrace Technology Pvt. Ltd

Associate Software Developer

03/2023 – 03/2025 | Pune, India

- Developed client-facing web and cross-platform mobile applications with **React, Next.js, React Native, and TypeScript**.
- Built **responsive, reusable UI components** for enterprise dashboards and consumer-facing products.
- Integrated **REST API** with **Axios** and optimized **data fetching, caching, and API performance** with **TanStack Query**.
- Managed application state using **Redux Toolkit**.
- Optimized **application performance** using **React.memo, useMemo, useCallback, lazy loading, and code splitting**.
- Delivered **new features, enhancements, and bug fixes** across multiple client projects while meeting business requirements.
- Collaborated with design, backend, and QA teams in Agile sprints to deliver **production-ready features**.

Software Developer Trainee

12/2022 – 03/2023 | Pune, India

- Developed features for internal **React.js** dashboards and consumer-facing cross-platform **React Native** applications.
- Integrated REST APIs, **resolved UI and functional issues**, and improved application usability.
- Collaborated with senior developers in **Agile teams**.

Projects

AI-Powered Recruitment SaaS 🚀, Next.js • TypeScript • Tailwind CSS • TanStack Query • OpenAI API • Socket.io • Vercel

- Developed **end-to-end AI workflows** for prompt submission, response generation, content review, and editing.
- Integrated **OpenAI APIs** to automate **job description generation**, reducing manual drafting effort by **~60%**.
- Crafted reusable, responsive, and **brand-aligned UI** components for scalable frontend development.

Energy Management Platform 🚀, React.js • React Native • Expo • TypeScript • Redux Toolkit • TanStack Query • Axios

- Developed **consumer-facing features** for meter onboarding, meter management, guest access, and energy analytics.
- Reduced meter onboarding time from **12–15 to ~5 seconds** by integrating **third-party APIs** to auto-populate meter details.
- Built an internal admin panel for **customer onboarding** using **React.js, Redux Toolkit, TypeScript, and Tailwind CSS**.

AI Clinical Assistant Chatbot 🚀, Svelte • SvelteKit • TypeScript • Tailwind CSS • Supabase • OpenAI API • Vercel AI SDK

- Developed **responsive UI** for an AI-powered clinical assistant using **Svelte, TypeScript, and Tailwind CSS**.
- Integrated **OpenAI APIs and backend services** to deliver **context-aware conversational** experiences.
- Implemented **secure authentication** using **Clerk** and managed data with **Supabase**.
